I'm emailing you back to let you know how disappointed I am that absolutely nothing is being done on our street on Helen Avenue in Sun Valley we have become the landing spot for all homeless vehicles whether they be motorhomes are people living in their cars or simply the fact that the people living in their cars have more than one car and are allowed to use our street as their garage to work on their cars as they please I've had a car next to my house for over a month on Jack's with no rear wheels on it I've been told numerous times by the police they are absolutely not going to do anything about this I realize this homeless thing is a real problem but I'm sorry I'm just so tired of all the trash all the feces all of the Traffic late at night it's not fair the other districts seem to be doing a little bit about it by at least putting up the signs and keeping them out of the residential areas just because there's a commercial next to a residential area should not mean they should be allowed to be there there are plenty of areas around that is all industrial or commercial that people in their homes should not have to put up with the motorhomes and the traffic in the trash and the peeing I don't feel that anything at all is being done about this
